Reference

Ran-Synchron sp. z o. o. was founded in 1998. We collect and manage waste. We clean and neutralize all petroleum-derived substances effectively and professionally. Establishing cooperation with CleanBacter I T M sp. z o. o. has given a new dimension to our activities related to the neutralization of petroleum-derived waste.

After using Eco-pH preparations, we allow ourselves to express our opinion regarding most important aspects:

- Effectiveness. Eco-pH agents showed extremely high effectiveness compared to the measures commonly available on the market
- Time. In this aspect, the Eco-pH preparations proved to be unrivaled. The rate of utilization of petroleum derivative pollutants is much faster than when using other measures
- Costs. Thanks to greater efficiency and faster operation of Eco-pH preparations, the financial savings obtained thanks to Eco-pH measures are significant.

Summing up, we are satisfied with the cooperation with CleanBacter I T M sp. z o. o. in the field of utilization of petroleum-based pollutants and we recommend Eco-pH products.

Ran-Synchron sp. z o.o.
